

Safety Policy

Safety of all our staff students and customers is the number one guiding factor in any task that we undertake:

- * We do not do any tasks that we are not trained or instructed on
- * We look at every item to see if it constitutes a danger to anyone
- * We do not offer medically associated items, this means no drugs of any kind
- * Each new student gets a “Welcome Letter” which contains a map of our company with emergency exit marked and other safety instructions for A-1 and outside.
- * We keep a “Fire and Safety Attendance Record” or “Class Attendance Log” at the reception or classroom and each course or exam attendant must sign in on it
