

A-1 School Rules

All of the A-1 School Rules exist in order to establish a climate of stability that will at all times facilitate learning and working, and encourages learners to excel. Following school rules will provide students with a secure learning and working environment. Overall, at A-1 we try to generate an atmosphere in which courtesy, respect, sensitivity and tolerance towards others is the standard expected and achieved. Self - responsibility among students is a desirable aim, both as an aid to learning and as a necessary preparation for a role in the world of work and in society at large.

The very minimum number of school rules exist in order to ensure basic safety, good order and security.

All A-1 School Rules are updated from time to time in consultation with Management, Staff, learners and stakeholders.

Copies of the Rules are made available to students through normal learner manual and induction process.

Acceptance of any course place at A-1 implies the acceptance of the school's rules and regulations.
